

The diagram illustrates a complex geometric layout, likely a site plan or a technical drawing, featuring a large rectangle on the left and several smaller rectangles and triangles on the right. The layout is defined by a series of horizontal and vertical lines, with numerical values indicating dimensions or areas.

Key numerical values and their positions:

- 1055993.7500**: Located on the right side, near the top, associated with a large rectangular area.
- 13336.9408**: Located in the center-right, associated with a rectangular area.
- 6710.0000**: Located in the center-right, below the previous value, associated with a rectangular area.
- 1415000.0000**: Located on the left side, near the top, associated with a large rectangular area.
- 3848.5293**: Located in the top-right corner, associated with a small rectangular area.
- 5880.0000**: Located in the top-right corner, below the previous value, associated with a small rectangular area.
- 1679.9375**: Located in the center-right, below the previous values, associated with a rectangular area.
- 6690.0000**: Located in the bottom-left corner, associated with a small rectangular area.

The diagram is oriented horizontally, with the largest rectangle on the left and several smaller rectangles and triangles on the right. The lines are black, and the background is white.
