

Terraces

Terrace is based on unified standard frame 1200 x 2400mm element. All other terrace details are modified and created out of this basic frame. Terrace's board is made of impregnated wood or other corresponding wood types. Separately terrace frame with boards on them create module block, all bases and railings are completed using the same modular principle (1200 x 2400mm)

Terrass baseerub standart raamil: 1200 x 2400mm. Kõik teised terrassi elemendid on selle raami modifikatsioon. Terrassi laudad on valmistatud immutatud puidust või teistest sobivatest puiduliikidest. Terrassid valmistatakse modulelemendist millest on ka tehtud astmed ja käsipuud.
